

## **Application Form Bachelor Thesis «Biodiversity»**

As a prerequisite for the application, you must have successfully passed the compulsory modules of the first year of studies and passed or at least booked the compulsory modules of the second year of studies, which must then be completed before the start of the BSc thesis project.

The Bachelor Thesis is an empirical research project with a written final report and involves work of about 360 hours. For details, see Factsheet Bachelor Thesis.

The responsible supervisor is a Professor, an Adjunct Professor (TP), a Privatdozent (PD), or a Lecturer Teaching involved in the BSc Biodiversity program.

Student and supervisor fill out the following form together and sign it both. The student upload the completed form on OLAT (folder EEE299) by the latest of July 15<sup>th</sup>.

### **General Information**

Name of Student:

Study program (Major/Minor):

E-Mail-Address:

Matriculation Number:

Name of Supervisor:

Research Topic:

**Submission Date** (choose one):

15th of June

30rd of November

### **Expected Absences**

Period in which you are not working on the Bachelor thesis (personal absences, absence from work placement, block courses, courses, etc.):

**Rough Schedule**

How do you distribute the total of 360 hours? Describe your rough timeline here:

I confirm with my signature that the information provided is correct.

The supervisor agrees with the information and the rough timetable.
